The **low vision expo**, open from **10 a.m.-2 p.m.**, will feature technology, low-vision vendors and community resources that assist individuals who are blind or vision impaired. Attendees can demo devices, ask questions, and explore new low-vision technology!

The expo is hosted by VisionCorps, a non-profit that provides rehab services to individuals of all ages who are blind or vision-impaired in Chester County. For more information, please call 610-738-3008.

The logo for VisionCorps features the word "Vision" in a dark blue font and "Corps" in a teal font. A stylized blue arc above the letter "i" in "Vision" suggests an eye or a smile.
