

# STORYCATCHERS

Recording voices, saving memories.

At Storycatchers, we record the life story of your loved one. We use high-definition audio recording equipment to capture their memories and produce a keepsake you will cherish forever.

## CONVENIENT...AND COMPASSIONATE

- An experienced radio journalist carries out the entire interview and editing process.
- Storycatchers captures sound exclusively because people tend to relax, open up and speak more authentically *without* a camera present.
- Storycatchers is working with PA LINK of Bucks, Chester and Montgomery counties to provide this service free of charge. All interviews are conducted remotely through Zoom.
- Storycatchers conducts every interview with gentleness and respect. This can be a special but emotional time for the person being interviewed. We handle the process with dignity and professionalism.

## NO MORE REGRETS!

Time and again, we hear the same regret: "I wish I could hear Grandpa's voice just one more time." With Storycatchers, you can rest easy, knowing that your loved one's voice & memories will be saved forever.
